

Harmony Ideas

Putting the Harmony Commercial Music & Digital Signage system to work for you.

Digital List of Services • Every Location in Sync with You

With a business operating on the cutting edge of customers' tastes, keeping the menu up to date can be the liability of an outdated sheet of paper on a countertop or the opportunity of a vivid, fluid video presentation that is 100% controlled by you.

More than just a menu of goods and services, a digital sign gives you the platform to build a dynamic message about what you do and what makes your business unique. Educate customers on the finer points of the latest product with a slideshow or let your screens do the upselling by showcasing full motion video of the deluxe service. Highlight current promotions or value-added features by building a colorful and professional presentation in the intuitive Harmony digital sign builder.

When the lineup changes, the menu of every single location is right at your fingertips, easily updated with just a few clicks of the mouse.
