

Harmony Ideas

Putting the Harmony Commercial Music & Digital Signage system to work for you.

Digitally controlled wall art • Make the art match the mood

Your locations reflect a specific point of view to your customer. From the lighting and paint on the walls to the music and signage, everything the customer sees and hears is part of your brand.

Artwork brings an air of class and sophistication to your business setting, but it represents a moment frozen in time that just might not be right for every part of your business day. **Harmony can bring your artwork completely under your control.**

Schedule serene landscapes for your lunch crowd and jazzy abstracts for your live music and dinner crowd. Make your waiting room sign switch to a calming still life when not in use for customer education. Send your entire private art collection to every location in your chain without ever leaving your office.
